VOLUME LI

MARCH/APRIL 2021

No. 2

*Our mission is to be the leading walk-in and blast chiller/shock freezer manufacturer by providing superior products and services that exceed the expectations of our customers.*

## WinStar World Casino Dallas Cowboy's Bar & Grill

*Dallas Cowboys Bar & Grill is a one-of-a-kind fully immersive fan experience, situated square in the action of the country's biggest casino. With a unique, chef-inspired menu, craft cocktails and wall-to-wall LED screens, this full-service sports bar and grill brings the spirit of the Dallas Cowboys to WinStar World Casino & Resort for the perfect game day destination.*

*Whether you're coming in to catch a big kickoff or simply taking a time out from your own gaming adventure, Dallas Cowboys Bar & Grill is sure to have a winning answer for any appetite. Discover why WinStar World Casino & Resort is your headquarters for awesome food, amazing drinks and America's team. (Source: <https://www.winstar.com/dine/dining-venues/dallas-cowboys-bar-grill>)*

Pictured preassembled at **Thermo-Kool's** factory is an actual size 34'0" x 16'3" x 9'4" high **Thermo-Kool** walk-in cooler/freezer combination which was recently installed at the Dallas Cowboy's Bar & Grill in the Winstar World Casino, Thackerville, Oklahoma. **Thermo-Kool's** uncompromising commitment to the highest level of quality and excellent customer service make a perfect fit for the game winning sports bar and grill. **Thermo-Kool's** high density DURATHANE panel perimeter allowed the **Thermo-Kool** walk-ins to

be preassembled prior to shipment for a thorough quality control inspection to avoid "hidden costs" at the time of installation. With **Thermo-Kool's** ability to manufacture in 1" panel increments the walk-ins were manufactured in the exact sizes needed to maximize storage space capabilities with no "cutting and pasting" required in the field! **Thermo-Kool's** unique design capabilities allowed for all conduit to be foamed-in-place in the interior of the ceiling which removes

visible/hanging electrical wiring inside the walk-in. The interior ceiling finishes of each compartment are white smooth galvanized which, along with LED light fixtures, ensures maximum illumination is provided. The 42" x 78" entrance doors are equipped with 14" x 24" view windows, thermostatically controlled door and frame heaters, 1/8" aluminum kickplates 36" high on the interior and exterior to protect the doors against excessive abuse and traffic, vinyl strip curtains and foot treadles. The walk-in cooler also has a 30" x 80" glass door trimmed out in smooth black finish.

**Thermo-Kool** Customer Account Representative, Jessica Ramsay worked on the project with the consultant, Scott Heskett at The Hesman Group, LLC, Tulsa, Oklahoma; Tom Nash with Amundsen Food Equipment, Oklahoma City, Oklahoma and **Thermo-Kool** Marketing Agents, Darrin Chaisson with Ettinger-Rosini & Associates, Dallas, Texas and Harry Teel with Ettinger-Rosini & Associates, Oklahoma City, Oklahoma.

### HOLIDAY NOTICE

Thermo-Kool's offices  
and factory will be closed  
**Monday, May 31<sup>st</sup>**, for the  
Memorial Day Holiday.

## THE “CHILLING” FACTS

## Thermo-Kool INTEGRATED ROLL-IN BLAST CHILLERS/SHOCK FREEZERS

If floor space is an issue Thermo-Kool blast chillers/shock freezers can be integrated into the walk-in

With Thermo-Kool's DURATHANE high-density panel design the blast chiller/shock freezer panels integrate with every panel locked-in-place – no cutting or pasting necessary

Pass through doors allow for racks to be moved directly from the oven into the blast chiller for processing and then moved directly into the walk-in

The integrated blast chillers/shock freezers can be assembled on site at the same time as the walk-in and can fit into any existing doorway

Thermo-Kool can integrate single or multi-compartment roll-in blast chillers/shock freezers

To learn more about Thermo-Kool blast chillers and shock freezers contact your Thermo-Kool Customer Account Representative at 1-800-647-7074 or your local Thermo-Kool Marketing Agent.

## EMPLOYEE OF THE MONTH

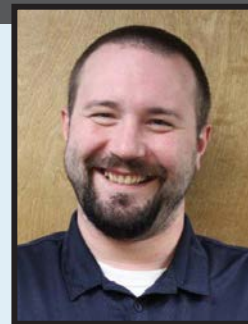

### Sean Hasty

**Thermo-Kool Specialist,  
Security Department**

**Sean Hasty** was selected Employee of the Month for January, 2021. Hasty was nominated by **Thermo-Kool** Maintenance Supervisor, **Josh Warren** who commented, “Sean is called a dozen times a day to do various tasks around the plant and office. Without a doubt, he is dependable, courteous, and does his job with pride and commitment.” Hasty has been with **Thermo-Kool** since July, 2013.

## EMPLOYEE OF THE MONTH

### Brent Husband

**Thermo-Kool Lead Support,  
Customer Service Department**

**Brent Husband** was selected Employee of the Month for February, 2021. Husband was nominated by **Thermo-Kool** Customer Service Supervisor, **Larry Gandy** who commented, “Brent has taken ownership of issues and followed them through to completion, including handling difficult situations which required plenty of patience. Brent also managed to successfully train a new employee in the department while still maintaining his normal duties,” **Thermo-Kool** Vice President and Sales/Marketing Manager, **Teri Brewer**, also commented, “During most of the pandemic in 2020, Brent took on the challenge of handling the inside office responsibilities of the customer service department while all other team members were working remotely. In addition, Brent took on the task of training a new Customer Service Technician and did so in a productive and timely manner.” Husband has been with **Thermo-Kool** since March, 2011.
