

★★★★★ EMPLOYEES OF THE MONTH ★★★★★

GREGORY  
McGILBERRY  
ASSEMBLER

Thermo-Kool Assembler, Shipping Department – **Gregory McGilberry** was selected Employee of the Month for January 2022. McGilberry was nominated by **Thermo-Kool** Production Supervisor, **Jermaine Jones**, who commented, “Gregory is a good employee and makes a positive impact on his department. He has really stepped up by leading and training new employees. He is a hard worker, a team player, and is always willing to help when needed.” McGilberry has been with **Thermo-Kool** since April 2017.

KEVIN WILLIAMS  
STOCKROOM  
SPECIALIST

Thermo-Kool Stockroom Specialist, Stockroom Department – **Kevin Williams** was selected Employee of the Month for February 2022. Williams was nominated by **Thermo-Kool** Purchasing Supervisor, **Heath Morris**, who commented, “Kevin is a hard worker. While being short-staffed in the stockroom, Kevin kept up with his stockroom duties and daily inventories. He never once complained about being short-handed or the overtime and long hours that resulted from it. He is dependable and has a great attitude.” Williams has been with **Thermo-Kool** since November 1997.

ONE WORD

Every year, our team selects a word to live and work by. This word is displayed in everyone’s respective office as a reminder of our commitment and dedication to make the new year as successful as possible.

Rand McLaughlin, President & CEO  
Vigilant

“I believe it will do me, as well as the company, a great service to remain alert – hyper alert – to my duties and responsibilities as a manager, co-worker, and father.”

David Whitehead, Plant Manager  
Balance

“I truly believe that work-life balance is important, and with my team, I insist that they practice it.”

Lee Thames, VP & Operations Manager  
Rebuild

“It is time to construct anew my mind and body as well as the company.”

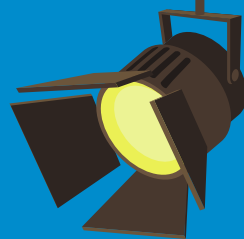

Heath Morris, Purchasing Supervisor  
Comradery

“It is essential that we have great comradery to achieve our goals.”

# PROJECT SPOTLIGHT: SAVANNAH ARENA

By: Lisa Hinton

Savannah is one of the top five cities essential to visit in the state of Georgia, according to Forbes. With its beautiful coastal landscapes, well-preserved architecture, and vibrant history, Savannah has much to offer for both tourists and permanent residents. And while some people remember Savannah for its haunted stories—like this ghost hunting enthusiast—most people will remember it for its famous *Forrest Gump* scene.

Savannah truly is its own box of chocolates, as it is full of wonderful surprises everyone is sure to enjoy.

One particular surprise cropping up in Savannah’s downtown district is the Savannah Arena. This massive structure is inspired by Savannah’s historic charm and includes eighteen premium areas, two premium clubs, twelve suites, one party suite, and club seating of 725. Including outdoor event spaces and the arena itself, which boasts a hefty seating for 9,500, this 20,000+ square-foot venue is an entertainment destination that is sure to thrill all ages.

With so much going on in one location, just one walk-in wouldn’t do. In the pictures, assembled at **Thermo-Kool’s** factory, are four keg coolers and one walk-in cooler/freezer, each custom-made to fit the building’s unique specifications. **Thermo-Kool’s** uncompromising commitment to the highest level of quality and excellent customer service makes for a perfect fit among Savannah’s entertainment halls.

**Thermo-Kool’s** high-density DURATHANE panel perimeter allowed the **Thermo-Kool** walk-ins to be preassembled prior to shipment for a thorough quality control inspection to avoid “hidden costs” at the time of installation. With **Thermo-Kool’s** ability to manufacture in 1” panel increments, the walk-ins were manufactured in the exact sizes and configurations needed to maximize storage space capabilities with no “cutting and pasting” required in the field!

Each storage unit was built with an internal white stucco aluminum finish, which— along with LED light fixtures— ensures maximum illumination is provided. The entrance doors, 52” x 80” and 36” x 80”, are equipped with a thermostatically controlled door and frame heater, vapor-proof light, 1/8” aluminum kickplates 36” high on the interior and exterior to protect the door against excessive abuse and traffic, and vinyl swing doors.

**Thermo-Kool** Customer Account Representative, Debbi Tisdale, worked on the project with, Kevin Eaton with Eaton Marketing & Associates, as well as **Thermo-Kool** Customer Account Representative, Allison Ishee, who worked with John Jurgens with Ricca Newmark Design, and Bobby Moccia and Briget Chavoustie with Desert Peak Marketing.

## HAPPY BIRTHDAY, MELISSA!

Tuesday morning, February 2, 2022, was a surprise celebration for Sales Supervisor, **Melissa Harrison**. What could have been just another ordinary day at the office quickly became a day filled with decorations, gifts, flowers, and most importantly, cake! It was a well-deserved celebration for an amazing co-worker and fun for everyone involved.

**Melissa Harrison** has been with Thermo-Kool since January 2000. This means, along with celebrating a birth milestone, just the previous month, Melissa has been with our team for 22 years. She has been an unbelievable asset to our company, and we wish her all the best on her special day.

Happy Birthday, Melissa! May you have many more in the years to come.

### JUST A REMINDER...

**HOLIDAY NOTICE**

THERMO-KOOL’s offices and factory will be closed **Friday, April 15th**, for the Good Friday holiday.

Be sure to clean your walk-in every 60 days to keep some stains, such as watermarks, from turning into white rust. When cleaning your walk-in, use only a mild detergent followed by a sanitizing solution and allow your walk-in to air dry.
